GoVenture Personal Finance Online Simulation

1st Edition ©2018

GoVenture is a realistic software simulation and comprehensive curriculum designed to help youth and adults gain skills in personal financial literacy and investing.

The experience is visual, interactive, and fun!

- Establish your life goals and then live your financial future for up to 20 years.
- Monitor your financial information — income, expenses, assets, and liabilities. Build your education, job experience, and health.
- Decide where to invest your money — savings account, stocks, bonds, mutual funds, precious metals, and more.
- Meets 100% of the TEKS/ELPS

Monitor your Net Worth as it changes based on the economy, your lifestyle and investment decisions, and your personal spending habits. Will you be wealthy in the future? Can you afford to buy a new car or home today? Should you invest in a rental property or the stock market? When can you retire? Play GoVenture and find out!
