Personal Financial Literacy

Providing the financial building blocks for earning, spending, saving, and investing through each stage of life

Overview

As part of the Skills for Life CTE Series, ***Personal Financial Literacy*** provides the financial building blocks for effective earning, spending, saving, investing, and giving through each stage of life. From how to manage a paycheck to understanding the time value of money, this text prepares students to be financially fit money managers.

Real-world examples are embedded throughout the book to demonstrate financial dilemmas students may encounter, such as identifying needs and wants and how credit impacts financial decisions. This graphically illustrated textbook brings personal finance topics to life as it hones problem solving and critical thinking skills and prepares students to manage their financial futures.

Features

- Students create and develop a comprehensive financial plan including goals, budgets, and investment strategies
- End-of-chapter review activities and assessments test students' knowledge
- Chapter features highlight real-world decision making and financial math
