Introduction

This curriculum mapping guide contains all of B.E. Publishing’s titles included on **eReadiness.com**. Within each subject area, specific titles and prerequisites have been identified, as well as strategies for using each text.

eReadiness.com Bundle subscription users can use this document to locate the subject area you are teaching and review all the available titles to become familiar with each resource. Your eReadiness.com Bundle subscription includes a huge library of resources allowing you to mix and match content within your classroom. Based on your curriculum needs, determine which texts—or individual units, chapters, and lessons—are best suited for you and your students.

Customers who have purchased individual titles can use this document to locate purchased title(s) to review teaching notes, as well as find additional related texts that fit your curriculum needs.

For more information about each title, visit bepublishing.com.

Accounting

Titles for Teaching Accounting

Accountivities

The reinforcement lessons in this text should be used in conjunction with a first year Accounting textbook. The activities do not include the “how-to” and are ideal for having students apply what they have learned in a simulation type business.

Grades 9-12

Nothin' But Net

This simulation should be used in conjunction with a first year Accounting textbook or as a final capstone project at the conclusion of the course. The projects do not include the “how-to” and are ideal for having students apply what they have learned in a simulation type business.

Grades 9-12

Games
Accounting
Teachers Play

This reference book is ideal for instructors who are looking for fun games, activities and strategies that reinforce the accounting concepts being taught in a first-year accounting course.

Grades 9-12

Business, Marketing & Finance

Primary Titles for Teaching Intro. to Business

Foundations of
Business

Description: This in-depth text introduces fundamental business concepts such as economics, management, marketing, finance, and entrepreneurship. Students use what they learn in each unit to create a comprehensive business plan portfolio demonstrating a practical business idea.

Who Should Use This Text: Ideal for students enrolled in an Introduction to Business course, Principles of Business, Marketing & Finance course, or similar. The foundational skills developed by use of this book will prepare students to be college and career ready business professionals.

Grades 9-12

Certification: Prepares students for Precision Exams Certification in Exploring Business & Marketing and Business Concepts.

Primary Titles for Teaching Marketing

Principles of Marketing

Description: This in-depth text introduces the 4 P's of marketing, helping students understand the role of marketing within the business environment. Students use what they learn in each unit to create and develop a detailed marketing plan portfolio.

Who Should Use This Text: Ideal for students enrolled in an introductory Marketing course. The foundational skills developed by use of this book will prepare students to be college and career ready marketing professionals.

Grades 9-12

Certification: Prepares students for Precision Exams Certification in Marketing Introduction, Marketing I, and Marketing II.

Social Media Marketing

Description: This text covers market research, digital marketing tools, and social media management and prepares students for the ever-changing social media landscape with current trends, platforms, and examples. Real-world statistics and infographics support the concepts covered to reinforce student learning. Students use what they learn in each unit to create and develop a cumulative social media marketing plan portfolio.

Who Should Use This Text: Ideal for students enrolled in a digital marketing or social media marketing course. The foundational skills developed by use of this book will prepare students to be college and career ready social media marketing professionals.

Grades 9-12

Certification: Prepares students for Precision Exams Certification in Digital Marketing.

Supplemental Titles for Teaching Marketing

The Dream Team, 2E

This simulation integrates entrepreneurship, sports marketing, and computer applications, where marketing concepts are presented as students produce marketing documents for a sports team they create. This text can be integrated into your curriculum to allow students to apply marketing principles to a sports-themed business.

Grades 9-12

Primary Titles for Teaching Personal Finance

Personal Financial Literacy

Description: This comprehensive and in-depth text covers fundamental concepts in personal finance and economics. Students use what they learn in each unit to create and develop a comprehensive financial plan including goals, budgets, and investment strategies.

Who Should Use This Text: Ideal for high school students enrolled in a Personal Finance course. The foundational skills developed by use of this book will prepare students to be financially responsible consumers.

Grades 9-12

Certification: Prepares students for Precision Exams Certification in General Financial Literacy and Personal Financial Responsibility.

100% aligned to the TEKS for Texas Proclamation 2019 Textbook Adoption.

Personal Finance for Teens

Description: This teen-based text introduces basic concepts in personal finance including financial and career planning and money management. The examples presented are targeted towards teens and their interests, where students apply their learning to relevant scenarios.

Who Should Use This Text: Ideal for middle and high school students enrolled in an introductory personal finance course.

Grades 6-12

Business Law

Supplemental Titles for Teaching Business Law

You Be the Judge!

In this text, students use their knowledge of key business law concepts to review and analyze condensed case studies from real cases. Students then act as the judge and decide who should win the case. This supplemental text should be used in conjunction with a Business Law textbook.

Grades 9-12

Communications

Primary Titles for Teaching Communications

Business &
Professional
Communications

This comprehensive text introduces business communication as the foundation for college and career readiness and highlights aspects of professionalism and collaboration. Students apply their learning in each chapter to real-world business scenarios.

Grades 9-12

Supplemental Titles for Teaching Communications

Formatting
Business
Documents

This computer applications text teaches students how to create and properly format a variety of business communications documents. Use this text as a supplement to Business & Professional Communications to allow students to demonstrate their knowledge of written business and professional communications in real-world scenarios.

Grades 6-12

Computer Applications

eReadiness.com includes a range of titles to teach computer applications, whether you teach using Microsoft Office, Google Apps, or another application. As a starting point, it is recommended you begin with either [Learn-by-Doing: Microsoft Office](#) (any version) or [Learn-by-Doing: Google Apps, 3E](#) as these titles provide step-by-step, screenshot-based instructions where students learn applications skills independently. For students who already have a working knowledge of using computers applications, a variety of other texts offer hands-on lessons in which the “how-to” of performing each skill is not presented.

Titles for Microsoft Office Applications (Screenshot-based)

 <p>LEARN-BY-DOING Microsoft Office Specialist 2019 Series</p>	<p>Learn-by-Doing: Microsoft Office Specialist 2019 Series (Word, Excel, and PowerPoint)</p>	<p>Description: Hands-on lessons using step-by-step, screenshot-based instructions where students are able to learn Office skills independently.</p> <p>Who Should Use This Text: Use this series as a starting point for students who do not have a working knowledge of Microsoft Word, Excel, or PowerPoint (2019, 2016, 2013).</p>
 <p>LEARN-BY-DOING Microsoft Office Specialist 2016 Series</p>	<p>Learn-by-Doing: Microsoft Office Specialist 2016 Series (Word, Excel, and PowerPoint)</p>	<p>Grades 6-12</p> <p>Prerequisite: No prerequisite.</p> <p>Certification: 100% aligned to the skills assessed in Microsoft Office Specialist (MOS) Certification Exams for Office 2019 and 2016.</p>
 <p>LEARN-BY-DOING Microsoft Office 2013 Series</p>	<p>Learn-by-Doing: Microsoft Office 2013 Series (Word, Excel, PowerPoint, Publisher, and Access)</p>	

Titles for Microsoft Office Applications (Skills-based)

The Office Specialist.com, 2E

Description: Hands-on simulation projects for Microsoft Office 2016, 2019, and 365; the “how-to” of performing each skill is not provided.

Who Should Use This Text: Ideal for students who already have a working knowledge of using Word, Excel, or PowerPoint, as well as those preparing for MOS Certification.

Grades 6-12

Prerequisite: It is recommended that instructors review and teach the skills presented in the curriculum guide prior to students completing each project; or use Learn-by-Doing: Microsoft Office Series.

Certification: 100% aligned to the skills assessed in Microsoft Office Specialist (MOS) Certification Exams for Office 2019 and 2016.

It! Series, 3E

Description: Hands-on lessons for any version of Microsoft Office covering a wide range of skills; the “how-to” of performing each skill is not provided.

It! Series, 3E
Databases

Who Should Use This Text: Ideal for students who already have a working knowledge of Word, Excel, PowerPoint, Access, or Publisher.

Grades 6-12

It! Series, 3E
Desktop Publishing

Prerequisite: It is recommended that instructors review and teach the skills presented in each lesson prior to students completing each lesson; or use Learn-by-Doing: Microsoft Office Series (any version).

Web Design & Digital Literacy

Titles for Teaching Web Design

Web Design with
Google Sites

This text uses a hybrid teaching approach where students first follow step-by-step, screenshot-based instructions to learn the “how-to” of building a website using Google Sites. Students then proceed to subsequent projects where they build and design using the skills previously learned. No prerequisite.

Grades 6-12

Web Hot Shots

Projects in this text can be completed using any point-and-click or HTML-based web design software. The “how-to” steps are not provided in this text as students work independently to build websites for real-world clients.

Grades 6-12

Titles for Teaching Digital Literacy

Cyber Literacy
for the Digital
Age

This introductory text covers key cyber and digital literacy topics that students need to be safe in today's virtual world. Ideal for students enrolled in a Tech Readiness or similar class.

Grades 6-12

Internet Search
Activities 1 & 2

This supplemental text is ideal for students to demonstrate how to efficiently search for information online through a series of question and answer "scavenger hunt" activities.

Grades 6-12

Google Apps for
Learning: Tech
Readiness

These supplemental texts are ideal for students who already have a working knowledge of using Google Applications. Key concepts in digital literacy are covered and students demonstrate their knowledge through document production. Prerequisite: Learn-by-Doing: Google Apps, 3E Series.

Grades 6-12
