

eReadiness.com

B.E. Publishing's eLearning Platform for Business Education, Career Readiness, and Computer Applications Courses

[Watch Video](#)

NO Integration Required, NO Student Accounts, NO Data Privacy Concerns

Our eLearning platform is easy to use and teacher friendly. There's no need to implement proprietary technology or worry about student data privacy issues.

✓ **No Student Accounts Required**

As a teacher-only platform, eReadiness.com requires no student accounts. So, there're no SSO, rostering, usernames or passwords to implement and manage.

✓ **No Student Data Privacy Concerns**

Because eReadiness.com is a teacher-only platform with NO student accounts required, there are no student data privacy concerns.

✓ **No SSO, Rostering, or Integration Required**

Since eReadiness.com requires no student accounts, teachers import our course content directly into their own LMS (Canvas, Google Classroom, etc.). So, schools can use their existing rostering and SSO systems.

✓ **Digital Rights License**

Our course content is designed to let teachers use the material in an environment that they are already familiar with. Our DRL (Digital Rights License) permits teachers to download and import all course content into their own LMS (Canvas, Schoology, Google Classroom, etc.).

✓ **Multi-language Ready Content/Accessibility Ready**

Our eTextbooks and supporting resource materials are delivered in a non-protected format allowing them to be easily translated into multiple languages such as Spanish.

✓ **Use Any eTextbook Reader**

All of our eTextbooks are delivered in PDF format, so they work with any digital reading tool, such as Adobe Acrobat, or the PDF reader native to your LMS.

✓ **Add Content with "1-Click Course Download" to Your Existing LMS**

Our DRL (Digital Rights License) permits you to add our course content directly into your own LMS. Download selected files as needed or use our "1-Click Course Download".

✓ **One Code Access for Teachers**

The platform requires just one simple code for teachers to redeem. There is no setup or learning curve needed. Teachers log in, download the course content and start teaching.
